CMPSC-265 Data Structures and Algorithm
Homework 1

Due: Sunday, Sept 8th, 2019, 11:59pm

Deliverables:
An "AboutMe.txt" file containing the following specified information onto Blackboard.

Specifications:
In this very first homework, you are expected to create a .txt file that contains the following information about yourself.

- The full spelling of your name, and how would you like to be addressed?
- What is your major and current grade?
- Have you had any programming experience before? If so, please describe your experience briefly.
- In your previous programming experience if you have any, what is the most challenging and difficult part in your opinion? What makes you feel enjoyable?
- What is you career goal?
- Tell me a little bit more about yourself.
- If you have a job, how many hours a week do you need to work.
- How many courses are you taking this semester, and how many of them are math/engineering related course.
